

Ground Zero Electrostatics MTR-3000 Electrostatic Field Meter

MTR-3000 Electrostatic Field Meter

Item Number
MTR-3000

This hand held, non-contact, Electrostatic Field Meter finds static charge by measuring the electrostatic field on materials, machines, and people. Portable and easy to use, this meter is essential for production audits and static awareness training. Features Large 0 to 30,000 volt scale. Includes 9 volt battery and instructions.

Features

- ✦ Measures static charges instantly, reliably and economically in a pocket size meter!
- ✦ Measures static charges from zero to 30,000 volts
- ✦ Designed for close and repetitive readings
- ✦ Uses standard 9 volt battery with battery test feature
- ✦ Low drift, Repeatability + 1%,
- ✦ Unique AQuick Zero@ function which instantly rezeros the instrument and provides round compensation for the user
- ✦ Weight: 5.5 ounces
- ✦ Size: 4-3/8" X 2-5/8" X 1-5/16"
- ✦ Accuracy: +/- 10%

Specifications

Electrical Measurement Range

LO at 1/2"	0-500 volts
LO at 4"	0-3000 volts
HI at 1/2"	0-5000 volts
HI at 4"	0-30000 volts
Repeatability	±1%
Accuracy:	±10%
Power:	9 volt battery

Mechanical

Weight:	5.5 oz.
Size:	4-3/8" x 2-5/8" x 1-5/8"
