

Ground Zero Electrostatics PHT-770 Hygro-Thermometer

PHT-770 Hygro-Thermometer Determine temperature and humidity

Item Number
PHT-770

Packaging

Weight: 1 lbs (0.5 kg)
Length: 8.25 Inches (21 cm)
Width: 7.5 Inches (19 cm)
Height: 3.5 Inches (8.5 cm)

The PHT-770 Hygro-Thermometer is a highly accurate, battery operated temperature and humidity indicating instrument. Its large LCD displays both temperature and humidity measurements simultaneously.

The PHT-770 provides several operational features such as "Data Hold", Recall MIN/MAX measurements, and selection of °F or °C.

It comes equipped with a protective cap that is removed when making measurements and replaced for storage. The cap has a pen type clip that easily attaches to a pocket or belt for portability.

Two AAA batteries are supplied that provide up to 500 hours of operation.

It offers that same performance as models costing 2-3 times as much.

Specifications

Input Power:

2 each AAA Alkaline Batteries. Battery provide up to 500 hours of operation.

Relative Humidity Range:

5 to 95% at operation temperatures from -10 to +50° C

Temperature Range:

-10°C To 50°C (14°F to 122°F)

Memory:

Minimum and Maximum measurement recall

Controls:

DATA HOLD button, Recall MIN/MAX button, °C/°F button

Resolution:

Temperature resolution in 10th's of a degree
Relative Humidity in 1% increments

Response Time:

Approximately 80 Seconds

Auto Off:

Automatic power off after 20 minutes to prevent battery drain when not in use

Dimensions:

Width: 1.9" (4.8 cm)
Depth: 0.5" (1.3 cm)
Length: 6.7" (17 cm)

Weight:

0.25 ounces, with batteries

Accuracy:

Temperature - $\pm 1^{\circ}$ C ($\pm 1.8^{\circ}$ F)
Humidity - $\pm 5\%$ all ranges
